

## REVISTA BANIPAL GOES DIGITAL

*Revista Banipal de literatura árabe moderna*, established in March 2020 by the internationally renowned *Banipal* magazine, is proud to announce the launch, with Banipal's digital partner Exact Editions, of a digital archive and digital subscription for individual subscribers, and for institutions, libraries and arts organisations.

As an independent magazine *Revista Banipal* is completely free to publish a wide and wonderful range of creative texts by Arab authors – fiction, poetry, memoir and plays, plus essays, profiles, interviews, book reviews and event reports, opening an ever-wider window on the diverse Arab literary scenes.

A digital subscription would be an invaluable and indispensable library resource, particularly in these continuing Covid-19 times. *Revista Banipal* in digital format will bring these modern Arab voices to Spanish-language readers the world over.

*Revista Banipal* joins the English edition of *Banipal* in playing a pivotal role in the essential dialogue between cultures, acting as a catalyst for new knowledge, understanding and empathy between cultures. *Revista Banipal* shares the same three essential cornerstones as the English *Banipal*, that is, that Arab literature is an essential part of world culture and human civilization; that dialogue between different cultures needs to be continually deepened; and that the joy and enlightenment to be gained from reading beautiful poetry and imaginative writing is an integral part of human existence.

*Revista Banipal* recognizes the inspirational power of literary translation to open dialogue and understanding between cultures – the moment a reader starts to read a translation new dialogue begins.

*Banipal* is named after Ashurbanipal (668–627 BC), Emperor of Assyria, who built the first library in the world – of clay tablets. *Revista Banipal* is a new kind of library – assembling contemporary literature from the Arab world and its diaspora, written by Arab authors in whatever language they are writing in and published, in print and digitally, in Spanish translation.

*Revista Banipal* places literary dialogue between the Arab and all other worlds on the highest level, in order to create a global readership and make this Arabic literature accessible to the widest possible audiences.

A digital subscription provides access to all the back issues of *Revista Banipal*. Exact Editions' in-depth search technology allows subscribers to get the most out of this digital resource. Subscribers can search for a name or term, particular author or translator and then bookmark the relevant pages. Every single word is covered by the Exact Editions search system.

*Revista Banipal* N°1 is available to read as a free trial. Here you can read all about it.
